FOR YOUR ASSISTANCE

Trailfinders reference **MDJDS1**

Your Trailfinders voucher should be presented to our supplier on arrival and serves as a guarantee for pre-paid services. Your complete itinerary and booking conditions are detailed on your booking confirmation and we recommend that you travel with a copy of this document. You can also access these details online at any time using our **ViewTrail** facility at **trailfinders.com**.

Airlines may alter their flight schedules whilst you are travelling and we strongly recommend that you check onward or return flight details by contacting your airline locally or by accessing your **Latest Flight Timings** on **ViewTrail**.

In the unlikely event that you experience any difficulties with your travel arrangements, it is generally best to resolve these directly with the hotel management, rental company or tour operator during your stay. If a hotel issue cannot be resolved, we have a local agent in many locations who you must contact in the first instance for assistance. All local contacts are detailed on your voucher and on your booking confirmation. If a local agent is not detailed for your destination or you have been unable to resolve the situation, you must contact your Trailfinders travel centre, using the number on your booking confirmation which can also be found on **ViewTrail**.

Please remember that failure to provide the hotel, our local agent or Trailfinders with the opportunity to attempt to resolve any difficulties at the time may reduce or invalidate a complaint or request for compensation after your stay.

EMERGENCY CONTACT (365/24/7): In the event that you experience a genuine emergency and need the assistance of the TF Duty Officer, please email us at priority@trailfinders.com for a priority response.
